TUSCOLA ECONOMIC DEVELOPMENT CORP

SEPT. 8 PUBLIC OPEN HOUSE CANCELED TUSCOLA EDC RECREATIONAL PATH PLAN TO BE REVISED

GOOD NEWS! The Tuscola County Economic Development Corporation has heard from the community regarding the proposed multi-use recreational path and dam access along Wireline Road and M-24.

According to Jim Tussey, chairman of the EDC, community feedback has prompted a change in plans.

“The EDC looks to capture grant opportunities that will benefit all,” Tussey said. “Capturing grant funds for our community is a primary goal for the EDC, and we have raised millions for Tuscola County. For the multi-use recreational path (bike/walking), even without the public meeting having occurred, the community has spoken. **The current layout has been scrapped.**”

PUBLIC OPEN HOUSE CANCELED
The public open house scheduled for
Tuesday, Sept. 8, 2026, has been canceled.

Verdantas, the EDC’s grant and engineering consultant, and the EDC are going back to the drawing board. The goal is to explore using more state land to create a safe and popular multi-use path while also trying to help the Caro dam.

The EDC thanks everyone who has provided input.

“Please contact the EDC if there are any questions or ideas,” Tussey said. “We love to hear from our community.”
